

Welcome to
Service Exchange

The best way to exchange
services in your community

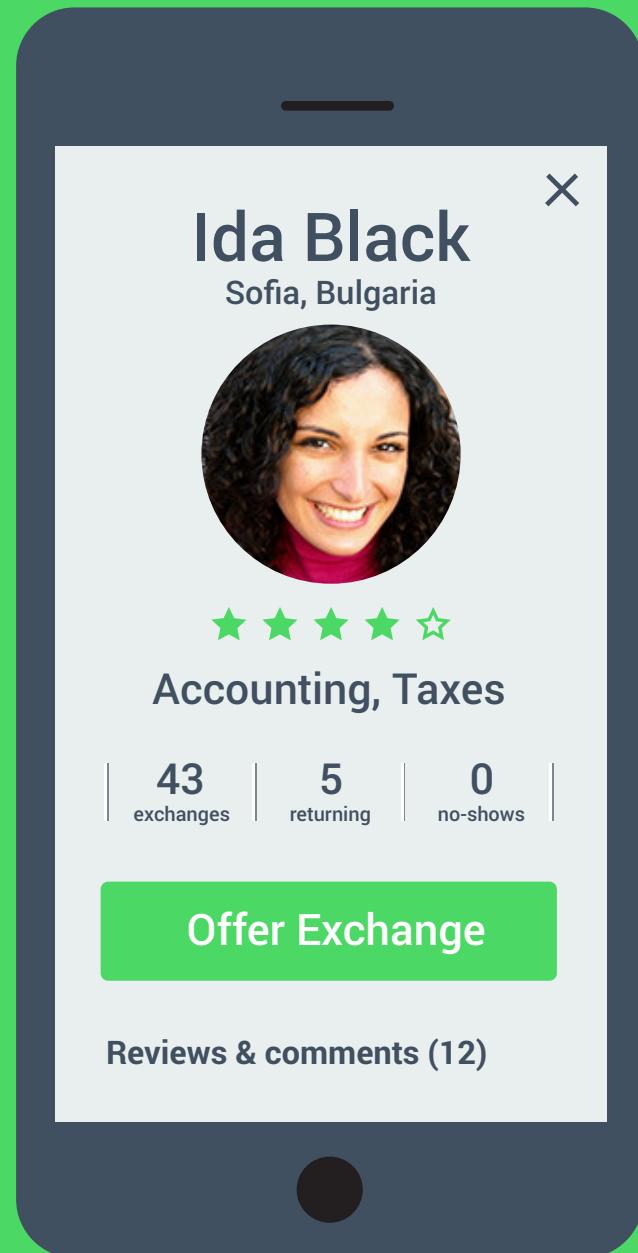

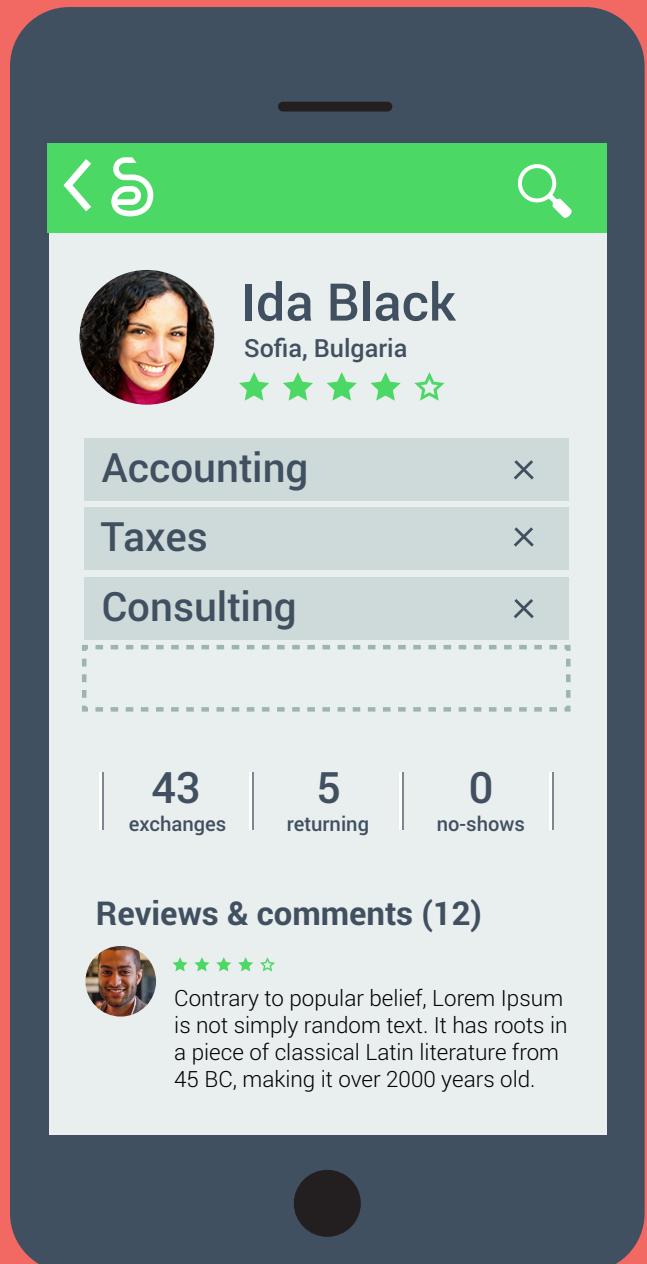

How it works

1. Find the service you need
2. Offer exchange
3. Rate

Browse user profiles
to find the best match
of services, read
reviews and leave
comments

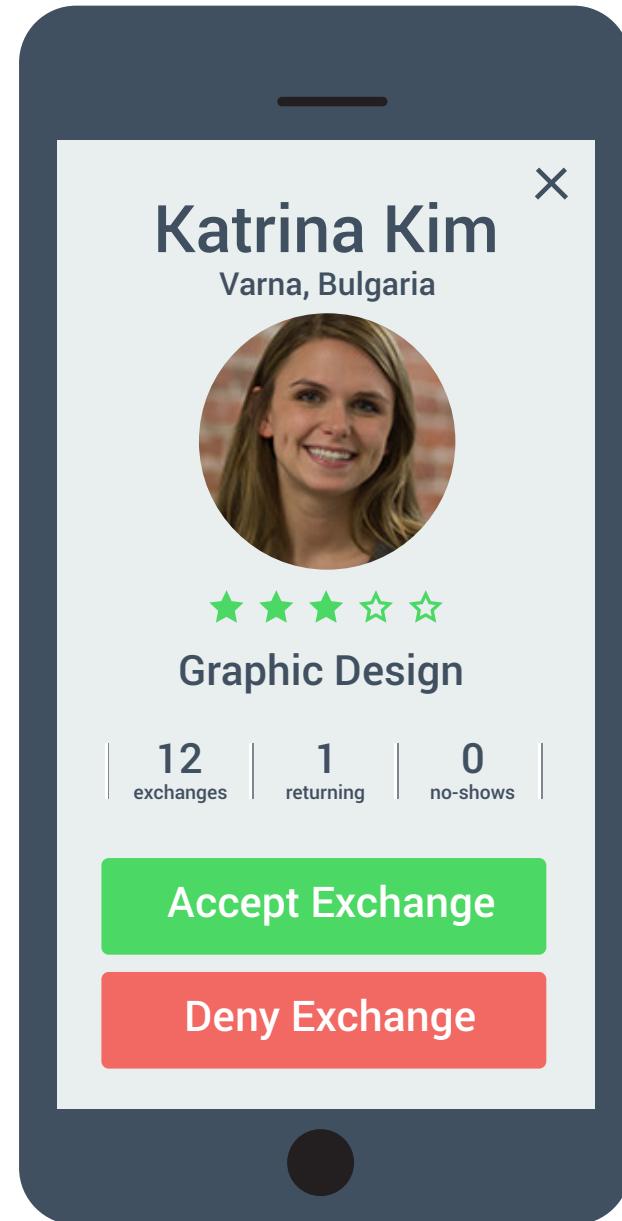

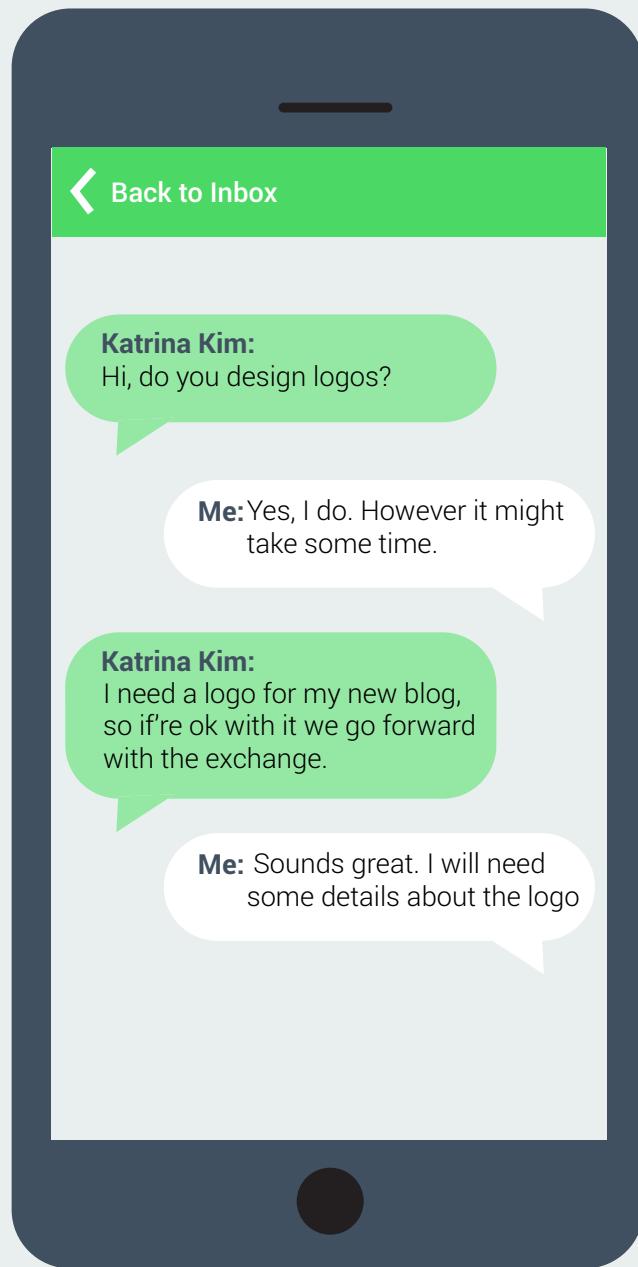

Easily update your
own profile and
list of services

We will notify you
when someone else is
interested in your
services. You just need
to Accept or Deny the
exchange

It's that easy!

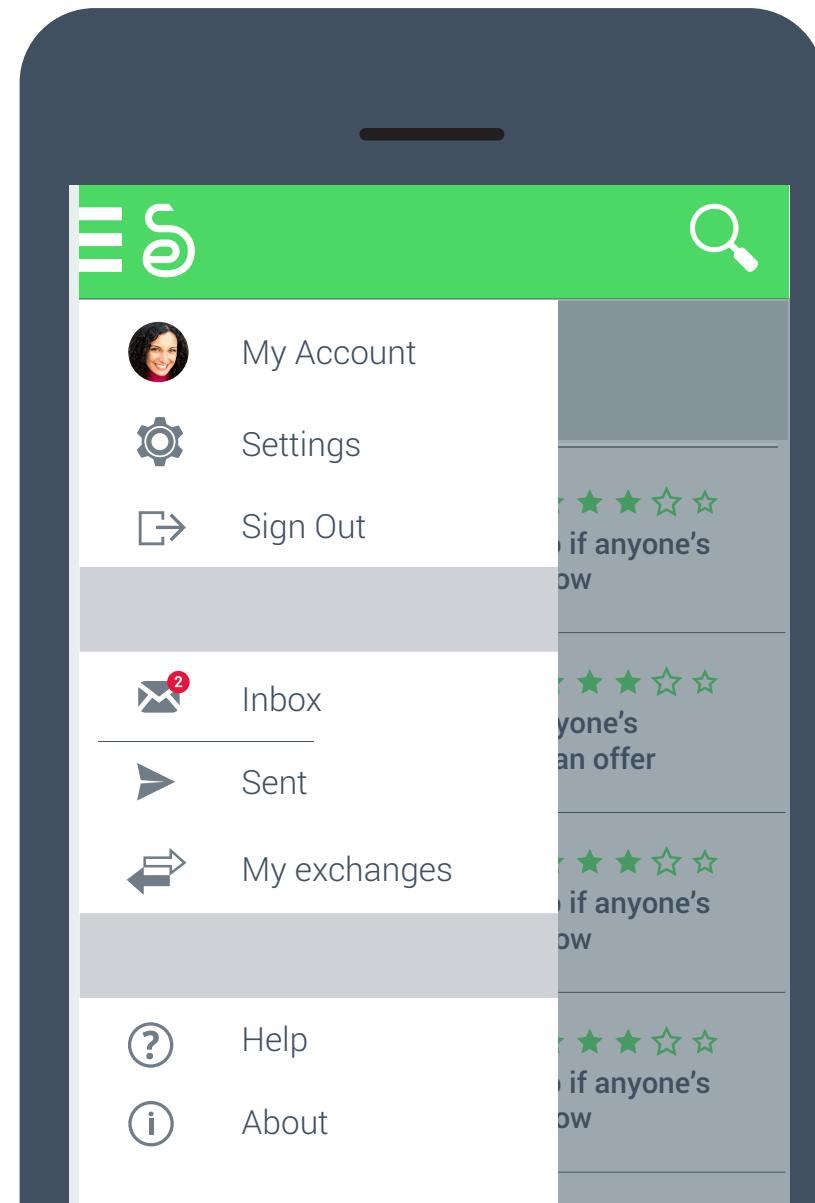

Chat with selected users to seal the deal

**Need more control
of your profile?**

**Access your inbox
and various settings
from the drawer on
the left**

THANK YOU
